PERSONAL STATEMENT

I have experience working with children and adults of all ages. My goal when I work is to challenge my students while creating a safe environment in which they feel comfortable enough to take risks. I believe anyone is capable of learning anything if they are surrounded with a supportive team. I always come in fully prepared and I have a collaborative approach to teaching. I believe in using the best idea in the room and I encourage my actors and students to ask me questions and be curious. I am organized, driven, open-minded, and come in ready and willing to give my best to both my coworkers and my students every day.
